

## Self-Introduction

Greetings Sir/mam,

First of all, thank you so much for giving this opportunity to introduce myself.

I'm Sridevi, I'm graduated in Bachelor's degree in the stream of Electronics and Communication Engineering at Aditya college of engineering & Technology, Surampalem. Apart from my academics, I have learned course in python & sql.

Coming to my family, father is a businessman & mother is a housewife.

I have done a project on python where we can convert audio to text file.

My hobbies are drawing cartoons & listening music.

I'm self-motivating person who never give up on learning are my strengths.

My goal is to reach a higher position in a reputed company like yours.

lastly, I am a quick learner & believe in learning from my past mistakes & experiences.

←  
short term goal  
&  
long term goal

That's all about me,

Thank you.

⊛ what do you learn from your past mistakes & experiences?

In the past, I got affected by the Covid-19 during the first wave because of my negligence.

In the second wave, I took all safety measures like wearing mask, using sanitizer when I ~~when~~ went out of home. I ~~am~~ staying safe and taking ~~take~~ care of my family as well.

⊛ Strengths : —

I am honest-person, self-motivated & I will move forward with a positive attitude towards my career & life.

⊛ Weakness : —

I feel uncomfortable until I finish my work. I easily believe to others and I can't say no when someone requests me to help them.

① Short term goal:—

I want to get a job in a reputed company/organization like (name of company).

② Long term goal:—

To see myself in a respectable & responsible position where I can see my growth as well as company's growth.

③ where do you see yourself in 5 yrs from now?

I look forward to learn new skills & improve my knowledge to advance my career.

In 5 yrs from now, I see myself as a knowledgeable professional having an in depth knowledge of the company and the industry. I wish to see my growth and as well as company's growth.

Ans 2 I am flexible, hardworking & (I can work in any kind of environment & I am also passionate to work in wipro) so, I can be hired.

④ Why should we hire you? / How you are an asset for the company?

Ans 3 Being a fresher, I think I am very flexible & adaptive to learning new things. I am sure I will be able to contribute something capable for the growth of the company... Although, I don't have work experience & much work knowledge. I think by putting significant effort, I shall surely learn. I want a platform to learn & improve my skills. From my seniors, I heard that wipro gives more learning scope.

⑥ what did you know about IT industry?

(or)

why IT?

Information technology is a rapidly growing and constantly developing industry where the professionals should keep themselves updated to the current changes. I believe that anyone having passion to continuously learn can succeed well in the IT industry. This industry has a lot of scope in overall human development & it has the potential to transform any field, be it medical or defence or science. Also, I think IT industry provides opportunities to everyone having the required skill set without bias.

⑦ What will you do if you are not hired?

Since it is my dream job, I feel somewhat disappointed but I also believe in myself. I will <sup>reflect on my</sup> learn from my mistakes and <sup>again</sup> practice it and make sure that I won't repeat those mistakes again and even after joining in another company I will come to wipro even after 2 yrs or after the completion of the bond of that particular organization.

In the evening of that day another friend took the cake with his permission & we celebrated the birthday in front of the guards... he just stared at us & can't do anything... that was the funniest moment.

⑧ Qualities required for Effective Communication.

Must be Confident :- confidence underpins all effective communication.

Be clear

Convey respect :- other people will be more likely to engage in communication with you if you respect them & their

ideas.

Listening :- is one of the most important aspects of effective communication.

⑧ How do you deal with criticism?

I view criticism as an opportunity for me to improve, develop and to grow within the team I am a part of.

If someone criticizes my work, I will not take it personally but instead, I will see what I can do to change things so that my performance improves.

If you view criticism as a negative thing, you will always stay stuck in the same position, which isn't a good thing.
